

ALUMINIUM CUT - SYNOPSIS

Introduction:

- Bur geometry designed for maximum stock removal on non-ferrous and plastic materials

Features & Benefits:

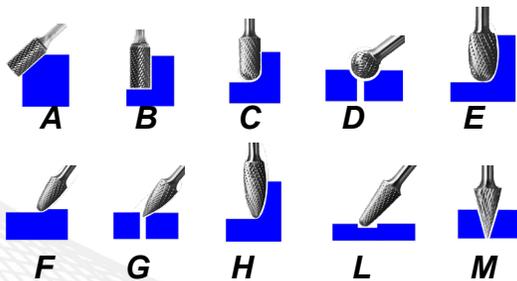

Specifically developed cutting geometry

- Allowing rapid stock removal on non-ferrous and plastics materials
- Avoiding clogging
- Ensures smooth cutting operation
- CNC machined - high consistent quality
- Manufactured to strict quality control standards - incorporates 100% inspection of brazed joints
- Combination of ATA air tool with Aluminium cut geometry
 - Giving a guaranteed smoother grinding operation

Range Details:

- 10 shapes available

- 5pc bur kit available

Industry target:

- Aerospace
- Automotive
- Railway
- Marine
- Foundries
- Die & mold
- Power Generation
- Oil & Gas

Applications

- Rapid stock removal on a non-ferrous materials e.g. Aluminium & Soft Plastics
